NOD32 ANTIVIRUS 4
BUSINESS EDITION
FOR LINUX DESKTOP

Award-winning ESET NOD32® technology delivers superior detection power for your business.

Keep the security of offline devices under control, and customize scanning as you see fit. Control it all effortlessly with our all-new, user-friendly remote administrator tool.

FREE LOCAL TECHNICAL SUPPORT

Do More with the help of our specialists. On call to provide technical support when you need it, in your language.

Endpoint Protection

Antivirus and Antispyware	Eliminates all types of threats, including viruses, rootkits, worms and spyware **Optional cloud-powered scanning:** Whitelisting of safe files based on file reputation database in the cloud for better detection and faster scanning. Only information about executable and archive files is sent to the cloud – such data is not personally attributable.
Removable Media Control	Blocks unauthorized devices (CDs/DVDs and USBs) from your system. Enables you to create rules for user groups to comply with your company policies.
Cross-Platform Protection	Detects and eliminates malware targeting Windows, Mac and Linux operating systems

Usability

ESET License Administrator	Makes it possible to handle all licenses transparently, from one place via web browser. You can merge, delegate and manage all licenses centrally in real-time, even if you are not using ESET Remote Administrator.
Low System Demands	Delivers proven protection while leaving more system resources for programs that end users regularly run. Can be deployed on older machines without the need for an upgrade, thereby extending hardware lifetime.
Remote Management	ESET Endpoint solutions are fully manageable via ESET Remote Administrator. Deploy, run tasks, set up policies, collect logs, and get notifications and an overall security overview of your network – all via a single web-based management console.
