

The ESET logo is positioned on the left, featuring the brand name in a white rounded rectangle. To its right, the product name 'PROTECT ADVANCED' is written in a clean, white, sans-serif font. The background is a teal gradient with abstract white and cyan geometric shapes and a network of glowing lines.

eset PROTECT ADVANCED

Best-in-class endpoint protection
against ransomware & zero-day threats,
backed by powerful data security

eset[®] PROTECT ADVANCED

- Management Console
- Endpoint Protection
- Advanced Threat Defense
- File Server Security
- Full Disk Encryption

Protect your company computers, laptops and mobile devices with security products all managed via a cloud or on-prem management console. The solution includes advanced threat detection technology, preventing new, never-before-seen types of threats, and full disk encryption capability for enhanced data protection.

- Improved protection against ransomware and zero-day threats via cloud-based sandboxing technology.
- Helps comply with data regulation thanks to full disk encryption capabilities on Windows and macOS.
- Easily accessible ESET PROTECT Cloud console improves TCO of security management.
- Single-pane-of-glass remote management for visibility to threats, users and quarantined items.
- Company endpoints and mobiles are protected via advanced multilayered technology, now with brute force attack protection.

Digital security on a tight budget? ESET PROTECT Advanced On-Prem is available with onsite deployment of the security management console.

ESET Security Services

Works together with your ESET endpoint security products to deliver a complete solution by reinforcing your IT security team with on-call support from ESET experts, who are ready to help if any serious security issues arise.

All ESET endpoint solutions are managed from a Unified Endpoint Management (UEM) cloud or on-prem console, ESET PROTECT, ensuring a complete overview of your network.

ADVANCED THREAT DEFENSE WITH CLOUD SANDBOXING TO PREVENT RANSOMWARE

ESET LiveGuard Advanced provides proactive protection against new, never-before-seen threats, by executing all submitted suspicious samples in an isolated and powerful cloud sandbox environment, in order to evaluate their behavior using threat intelligence feeds, ESET's multiple internal tools for static and dynamic analysis, and reputation data.

- Advanced unpacking & scanning
- Cutting-edge machine learning
- In-depth behavioral analysis
- Cloud sandboxing

MULTILAYERED ENDPOINT PROTECTION INCLUDING FILE SERVER SECURITY

ESET Endpoint Security provides strong malware and exploit prevention and can detect malware before, during and after execution. Now it also features anti-password guessing technology.

ESET Server Security provides lightweight multilayered server protection, to ensure business continuity.

- Block targeted attacks
- Prevent data breaches
- Stop fileless attacks
- Detect advanced persistent threats

POWERFUL ENCRYPTION MANAGED NATIVELY BY ESET PROTECT

ESET Full Disk Encryption is a feature native to the ESET PROTECT management console. It allows one-click deployment and encryption of data on connected Windows and Mac endpoints.

ESET Full Disk Encryption significantly increases your organization's data security and helps you comply with data protection regulations.

- Manage encryption on Windows and macOS machines
- Encrypt system disks, partitions or entire drives
- Deploy, activate and encrypt devices in a single action

REMOTE MANAGEMENT CONSOLE

ESET PROTECT is a cloud-based or on-prem, multifunctional remote network security management tool for ESET business security products across all operating systems. It enables one-click security deployment and the cloud console gives you network visibility without the need to buy or maintain additional hardware, reducing total cost of ownership.

- Seamless setup and deployment
- Cloud deployment does not require additional hardware or software
- Single point of network security management
- Saves time with automated tasks

About ESET

For more than 30 years, ESET® has been developing industry-leading IT security software and services to deliver comprehensive, multilayered protection against cybersecurity threats for businesses and consumers worldwide.

ESET has long pioneered machine learning and cloud technologies that prevent, detect and respond to malware. ESET is a privately owned company that promotes scientific research and development worldwide.
