

# RACKMOUNT.IT FortiRack

**Fortinet provides very good performing devices for small and medium sized businesses; however these are desktop models. These days business move to 19 inch racks and the new FortiRack kits are excellent to fit Fortinet devices into 19 inch cabinets.**

The FortiRack kit is an excellent add-on to place your high performance FortiGate in a 19 inch rack. On top of that it brings the essential console and network connections to the front!

The Fortinet models FG-60C – FG-50B  
FG-51B – FL100C – FE-100C have all their connections accessible on the front

including the console connection. For the FortiGate 80C and 60B 3 or 4 of the internal connections are available depending on your choice to have the console connection on the front or not. For the FortiGate 60D 6 out of 7 internal ports are brought to the front panel.

Assembly will take about 5 minutes. Simply slide your Fortinet device in the kit, place the retainers and connect the supplied cables to the keystones.

FortiRack kits are delivered in RAL 9006 (Silver) or RAL 9003 (White), depending on the model. Other colors can be delivered on project basis.
