New WiFi for the New Normal

Linksys HomeWRK for Business is a pioneering WiFi system that provides remote and hybrid workers with secure access to corporate and personal networks at home. Enterprise-grade security features protect your organization's remote employees, and high-performance networking equipment and services support your employees' productivity.

| Features	Benefits
Intelligent Mesh™ for a better employee experience	• WiFi 6 tri-band technology delivers unrestricted broadband speeds • Separate corporate and personal networks allow IT control of your networks and protect privacy for home use • Hassle-free setup leads to whole-home coverage without weak signals or dead spots
Safer workspaces for business and personal privacy	• Industry-leading enterprise security from Fortinet protects corporate assets and employee home networks • Multiple service set identifiers (SSIDs) so IT can regulate traffic on corporate servers and employees can run their home network as they like
Zero touch provisioning	• Zero-touch provisioning means IT administrators simply ship the hardware to employees, then configure the networks remotely • App-based guided setup for ideal placement of nodes
Intuitive management	• IT has real-time visibility to provision, monitor and manage all devices connected to the corporate network—anywhere, anytime from a single pane of glass
Optimal team collaboration and prioritization	• IT can prioritize network traffic to optimize videoconferencing and collaboration tools, such as Zoom and Microsoft Teams
Scalable and affordable Hardware-as-a-Service	• Low-cost hardware and service subscriptions • Easy to add users as business grows

Optimize remote employee experience with secure and fast WiFi at home.

Available Packages

	Standard Fortinet Security Available in One-Node & Two-Node Packs	Advanced Fortinet Security Available in One-Node & Two-Node Packs
Whole-Home Mesh WiFi	●	●
FortiGuard Anti-virus	●	●
FortiGuard Web filtering	●	●
Malicious and Unwanted Site Blocking	●	●
Adware Protection	●	●

Application control	–	●
FortiGuard Intrusion Prevention (IPS)	–	●
FortiGuard Botnet Protection	–	●

Additional Node is available to expand Wi-Fi coverage at home
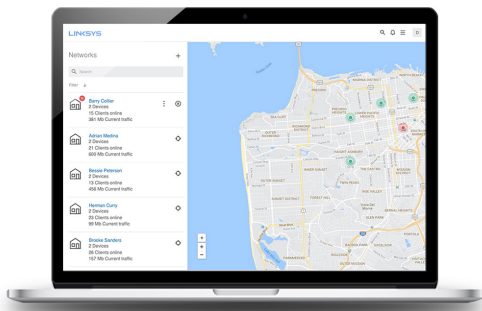

Easy setup from an intuitive management console and mobile app.

Linksys HomeWRK for Business gives IT visibility into system performance and simplified management over devices connected to the corporate networks from a cloud administrator console.

A smart mobile app intelligently guides home-working employees to set up their home networks, manage personal security, prioritize bandwidth, and more.

Features and Specifications

WiFi Technology:
AX4200 MU-MIMO Tri-Band Gigabit,
600+1200+2400 Mbps

Key Features:
3.5x Better Performance than an AC Router[1]
Dedicated Backhaul
4x4 MU-MIMO
1.4 GHz Quad-Core Processor
Next-Gen OFDMA Technology
Advanced Security
USB 3.0 Port
Three Gigabit LAN Ports + One Gigabit
WAN Port
40 Devices per Node

Security and Encryption:
WPA2-Personal Encryption
Anti-virus
Web Filtering
Intrusion Prevention
Application Control
Botnet Protection
System Logging to FortiAnalyze and Syslog
IPsec VPN

Network Standards:
WiFi 1 (802.11a)
WiFi 2 (802.11b)
WiFi 3 (802.11g)
WiFi 4 (802.11n)
WiFi 5 (802.11ac)
WiFi 6 (802.11ax)

WiFi Speed:
AX4200 (600+1200+2400 Mbps)

WiFi Bands:
2.4 GHz + 5 GHz (x2)

Number of Ethernet Ports:
1 Gigabit WAN
3 Gigabit LAN

Other Ports:
USB 3.0

Antennas:
Internal

Processor:
1.4 GHz Quad-Core

Memory:
Flash: 1 GB; RAM: 2 GB

Easy Setup:
Simple and secured web-based setup
Internet connection with modem
Mobile-friendly app with Android™ 6.0.1 or
iOS 11.4 and higher preferred.

Dimensions (LxWxH):
4.5 x 4.5 x 9.6 in (11.43 x 11.43 x 24 cm)

Weight:
2.1 lbs. (0.95 kg)

Power Supply:
Input: 100-240V, 50-60Hz
Output: 12V/3A

1. As compared to 2x2 WiFi 5 router at 80 MHz

Designed in California. Made in Vietnam.
