G SPEED™ SHUTTLE

with ev Series Bay Adapters

Storage that adapts to your productions

The G-SPEED Shuttle with ev Series Bay Adapters device offers up to 24TB[1] of transportable storage you can easily carry to an on-site location and back to the studio. Optimized 4K and 8K support lets you edit footage in real-time, render multi-layer effects, and quickly export a cut, while built-in hardware RAID offers several ways to help protect your files. Transfer rates up to 500MB/s[2] let you quickly ingest content or natively edit footage, and with two ev Series bays, you get a flexible way to quickly ingest and offload media from a wide range of ev Series drives and readers. Combined with two removable Enterprise-class hard drives and a trusted 5-year limited warranty, you get reliable, high-performance storage to scale with all your productions.

KEY FEATURES

- Up to 24TB[1] of capacity for demanding production workflows
- A transportable design for easy travel from studio to location and back
- Optimized to support multi-stream 4K and 8K workflows
- Built-in hardware RAID controller (supports RAID 0, 1 or JBOD)
- Sustained transfer rates up to 500MB/s[2]
- Two ev Series Bay Adapters to work with ev Series devices
- Dual Thunderbolt™ 3 ports for easy daisy-chaining (backwards compatible with Thunderbolt 2)[3]
- Removable, reliable Enterprise-class 7200RPM Drives
- 5-Year limited warranty
