Classic 2-bay NAS, Equipped with Dual Core

The first 2-bay NAS designed for personal users that comes with a dual-core CPU, Synology DS215j is an exciting piece of news for users worldwide eager to upgrade their home NAS. With the new CPU solution, the DS215j delivers reading speed over 111.41 MB/sec and writing over 87.49 MB/sec, a 20% gain compared to its predecessor.¹ Powered by a built-in floating-point unit, DS215j transcodes audio tracks into MP3 format on demand to reduce streaming bandwidth and speeds up thumbnail generation to yield a refreshing photo viewing experience. The addition of a USB 3.0 interface provides transfer rates 10 times higher than with USB 2.0. Despite all of the generous upgrades, DS215j remains budget-friendly.

Packed with network storage features, Synology DS215j serves not only as your private cloud to access files anywhere, but also as a backup device, DLNA music and video library, online photo album, local copy of your public cloud, 24/7 download portal and so much more to satisfy your daily data management needs.

Cross Platform File Sharing & Synchronization

Synology DS215j offers comprehensive network protocol support, assuring seamless file sharing across Windows, Mac®, and Linux® platforms. Internet file access is simplified by the encrypted FTP server and the web-based file explorer, File Station. HTTPS, firewall, and IP auto-block support ensure secure file sharing over the Internet.

Cloud Station allows users to sync files among multiple devices and platforms, including Windows PC, Mac, Linux, iOS and Android™ tablets or phones, effortlessly keeping everything up-to-date. **Cloud Sync** keeps your Dropbox, Google™ Drive, Microsoft OneDrive, Baidu, Box and hubiC storage in sync with your personal DiskStation at home.

DLNA-Certified Media Server

As a certified **DLNA DMS** (Digital Media Server), DS215j serves as a ready media server with the capability to host digital multimedia contents for remote playback. DLNA-compliant devices can access the shared contents on DS215j in the same local area network without fussing over privilege settings. Not only does it make your multimedia bank available without any preconfiguration, Synology mobile apps transform your mobile device into a remote control of your DS215j, sending movies and photos to your TV or music to your speaker right from the palm of your hand.

Cross-platform File Synchronization

Auto-synchronize your files among DiskStation, PC and mobile devices using Synology Cloud Station.

Anytime Availability

Access your DiskStation anywhere using Synology mobile apps.

Full Multimedia Features

With DS215j you have many tools to easily manage your multimedia. **Photo Station's** intuitive design allows you to effortlessly organize photos into customized categories, smart albums, and blog posts; as well as link them to social networking websites like Facebook, Twitter, Flickr, and Weibo with just a few clicks. **Audio Station** comes with a built-in lyrics plugin, Internet radio, and support for DLNA®, AirPlay®, and Bluetooth speakers for quality playback. With **Video Station**, you can watch movies and TV shows online and record your favorite programs with a DVB-T, DVB-S or DTMB tuner.

Synology QuickConnect and Mobile Apps

For users whose network environment lacks a public IP address or the ability to configure port-forwarding, **QuickConnect** provides a relay service for you to access your DS215j from anywhere around the globe, even when it's hidden in a local area network. With a customizable QuickConnect ID, you can log in to your DS215j via DSM browser interface, Synology desktop utilities, and mobile apps.

Synology provides mobile apps that let you enjoy the full variety of your multimedia library even when you're on the go, allowing you to access the photo albums, music, and video collection stored at home on your DS215j. Available on iOS, Android, and Windows Phone platforms, **DS photo+**, **DS audio**, and **DS video** mobilize your Photo Station, Audio Station, and Video Station, potentially placing terabytes of content at your fingertips. On top of that, **DS download** makes it possible for you to manage and monitor your download tasks remotely while **DS file** allows you to manage the files stored on your DS215j.

Runs on Synology DiskStation Manager (DSM)

Synology DiskStation Manager (DSM) is a web-based operating system tailor-made for Synology NAS. Featuring an intuitive multitasking user interface, DSM provides desktop-like experience to minimize effort in exploring and managing the DiskStation.

The built-in **Package Center** allows you to download and install a variety of packages on demand, ranging from backup, multimedia, business, security and utilities.

With all the built-in and add-on features, DSM provides you with complete and fine-grained control of your DS215j, helping you maximize productivity and make the best out of of your digital assets.

Energy-efficient with Cool and Quiet Design

Synology DS215j is designed with energy efficiency in mind. Not only does it provide a 92 X 92 mm fan and smart airflow to keep the system running cool 24/7, its noise dampening design makes it really quiet compared to PC counterparts. The hard drive hibernation feature can further reduce power consumption and operation cost.

All Synology products are produced with RoHS compliant parts and packed with recyclable packing materials. Synology acknowledges its responsibility as a global citizen to continually work in reducing the environmental impact of every product produced.
