# Unitrends Cloud Backup

SIMPLE PROTECTION FOR YOUR MOBILE WORKFORCE

Secure Endpoint Backup from Anywhere

Unitrends makes efficient, reliable backup and recovery as effortless and hassle-free as possible. Built with busy IT administrators in mind, Unitrends Cloud Backup provides a simple, cost-efficient way to protect and secure laptops, PCs, and other endpoints connected to the corporate network.
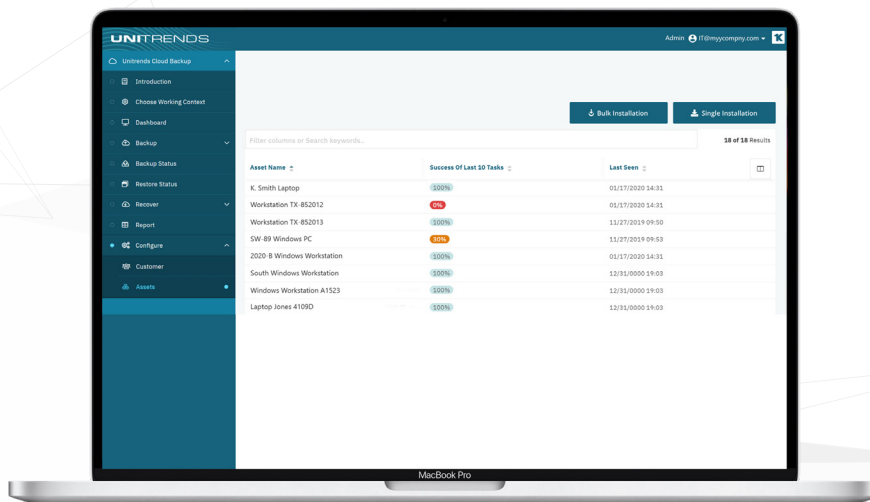

Enterprise-Class Data Protection Isn't Just for Servers Anymore

Protect end-user data in your distributed environment without the hassle of setting up an appliance or providing local storage at every office location. Unitrends Cloud Backup is the simplest way to back up from anywhere with internet connectivity — including WiFi — to protect employee or customer endpoints regardless of their location. To get started, simply download an agent to Windows machines, or use your favorite endpoint management software to push agents to your fleet. You can start backing up right away.

Everything You Need for One Simple Price

No matter what your employee or customer puts on their laptop, backup is covered without any extra management or file selection from you. Unitrends Cloud Backup includes protection for workstations with up to 1 TB of data, providing more than enough cloud backup for even the largest endpoints. Plus, no fees to access data or restore files.

NO SURPRISES. NO GOTCHAS. JUST SIMPLE, COST-EFFICIENT ENDPOINT PROTECTION THAT YOU WOULD EXPECT FROM A COMPANY WITH OVER 30 YEARS OF EXPERIENCE.

The intuitive Unitrends Cloud Backup management console makes protecting laptops easy.

Hands-Off Protection for Windows Endpoints

Once deployed, Unitrends Cloud Backup automatically backs up employee or customer workstation data to the secure Unitrends Cloud. No additional touches or IT management is required until data needs to be recovered, which is fast and easy.

Secure Cloud Protection for Your Mobile Workforce

Use Unitrends Cloud Backup for endpoints and files that don't need to be on a traditional backup appliance. Use Unitrends Cloud Backup alone or as a complement to Unitrends backup appliances.

End-User Productivity and Happy Customers

Protect critical data on Windows laptops and remote PCs, regardless of location. With simple backup to the Unitrends Cloud, setup is painless, and data is safe and easily recovered.

Simple Deployment

Provide enterprise-class protection for endpoints in minutes. Simply use your favorite endpoint management software to push agents to your entire fleet and start backing up endpoint data directly to the Unitrends Cloud.

Save Money, Reduce Complexity

Get data loss protection for endpoints without the need for local storage.

Restore Data Where You Need It

Initiate recovery from any location with an internet connection, including WiFi, so no one needs to drive to the office. You can restore files to the original endpoint or another machine running a Unitrends backup agent.
