- **Use built-in efficiencies to reduce costs**

Earth-friendly technology

Increased Resiliency and Control with Fireware® Pro 10

Fireware® Pro is the advanced appliance software for Firebox® X Peak™ and Firebox X Core™ security appliances. Designed for demanding network environments, it includes all the robust features of the standard Fireware appliance software from WatchGuard, but with many important networking enhancements. Fireware Pro gives IT administrators additional tools to intelligently manage resources, optimize traffic, and boost network resiliency for maximum uptime. It comes standard on all Firebox X Peak appliances, and is available as an optional upgrade for Core models.
