# WATCHGUARD DIMENSION

## Oceans of Data Instantly Become Security Intelligence

WatchGuard Dimension™ is a cloud-ready network security visibility solution that comes standard with WatchGuard's flagship Unified Threat Management and Next Generation Firewall platform. It provides a suite of big data visibility and reporting tools that instantly identify and distill key network security threats, issues, and trends, accelerating the ability to set meaningful security policies across the network.

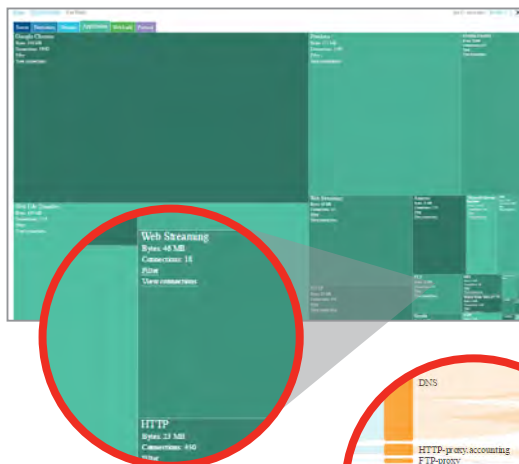

### EXECUTIVE DASHBOARD

Dimension highlights clients using the most bandwidth, allowing you to track cyberloafing.

### THREAT MAP

A geographical view helps you isolate web traffic, IPS attacks, blocked packets, and more.

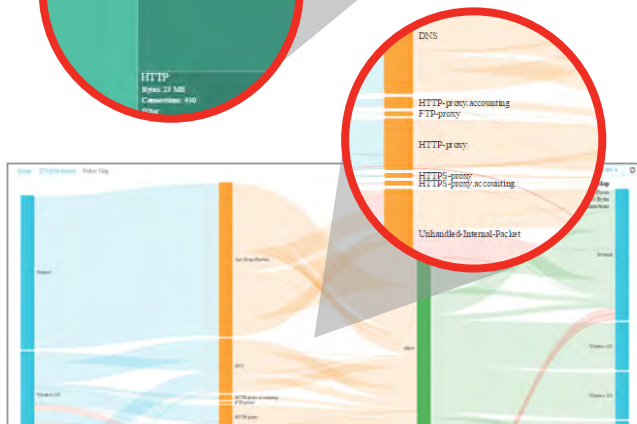

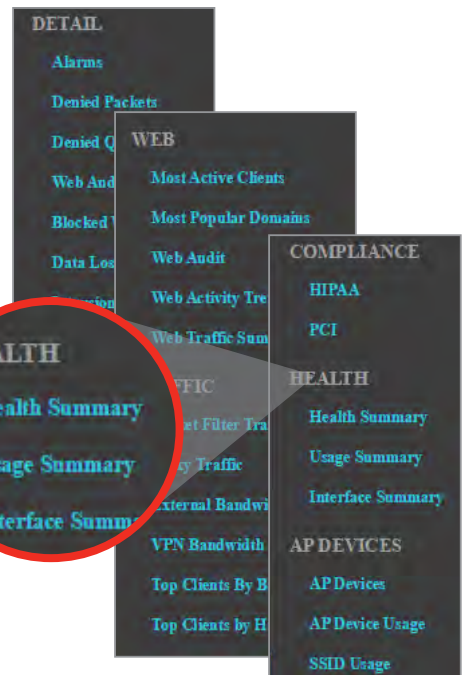

### FIREWATCH

Catch unauthorized application usage before it becomes a problem. Expand to full screen for maximum visibility.

### SCHEDULED REPORTING

Customize dozens of on-demand or scheduled reports to distribute summaries of daily or weekly events.

### POLICY MAP

Traffic flow visualizations give you x-ray vision into your policies so you can spot misconfigurations.

# watchguard.com/dimension

*A picture is worth a thousand words – or traffic logs!* Get a high-level, aggregated "big picture" view of network activity that pin-points top threats and trends, active policies and traffic patterns, and correlated views of top users and applications.

From the boardroom to the branch office, the pace and complexity of decision-making about network security has been increasing.

How can you ensure that your decisions are timely, effective, and better informed? *You need Visibility.*

# DIMENSION COMMAND
## Taking Instant Control of Your Network

*Visibility is key in the fight against cyber crime. WatchGuard Dimension™ gives you eyes, while Dimension Command gives you teeth.*

Dimension Command is the much-anticipated suite of management tools that work in tandem with the award-winning visibility tools in WatchGuard Dimension. With it, IT pros don't just see what's happening in the network, they can take immediate action directly from the dashboard.
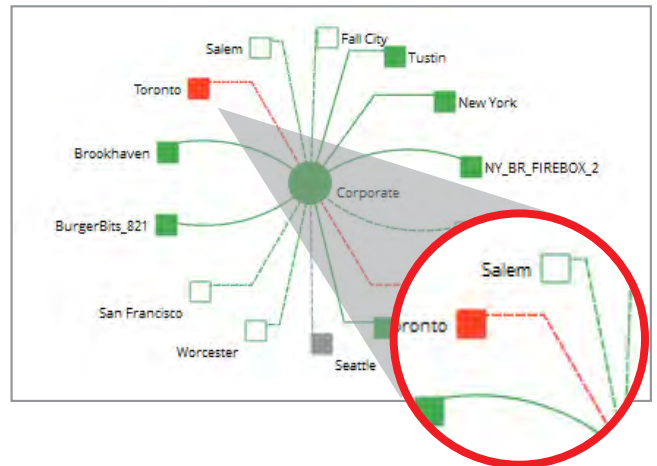

### ADD TO BLOCK LIST

Block clients or domains instantly without leaving the dashboard.

### HUB AND SPOKE VPN

Creating and managing secure connections to your branch offices has never been easier.

### RESTORE TO PREVIOUS CONFIGURATION

Easily jump back to previous versions of the firewall configuration.
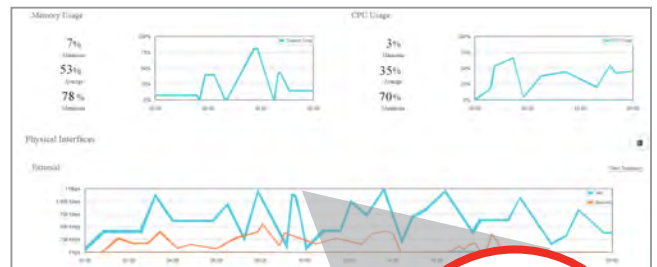

### HEALTH REPORT

Quickly spot memory, CPU, and interface issues before they become a problem.
