

7 Reasons Customers Choose Us

When it comes to delivering unparalleled security for today's **financial services organizations**, look no further than the **world's cybersecurity leader**.

1 Our comprehensive, best-in-class cybersecurity portfolio

We provide industry-leading solutions that work together intelligently to strengthen security, simplify operations, and improve ROI. All of our next-generation platforms are designed to stop zero-day threats and enable cyber transformation.

2 Zero Trust with zero exceptions

We're the only company that enables comprehensive Zero Trust throughout the entire digital ecosystem, with continual verification of every interaction.

3 Enabling the future of secure access for financial institutions

Our products empower and protect the global hybrid workforce with the industry's most complete SASE solution and ZTNA 2.0. Prisma® SASE secures users anywhere.

4 Best-in-class protection for multicloud financial services environments

We offer the only comprehensive cloud-native application protection platform (CNAPP) with flexible, integrated modules that secure you from code to cloud. Prisma Cloud delivers full-lifecycle, full-stack protection across all clouds.

5 The leading platform for the autonomous SOC

By leveraging the benefits of today's most advanced AI and automation, we've ensured that security teams can be prepared for what's next. The integrated Cortex® portfolio transforms the SOC.

6 Your true partner for digital transformation in financial services

Our extensive ecosystem of experts and certified partners brings industry-leading insight to address customers' unique challenges. Our global teams are fiercely determined to optimize both cybersecurity investments and outcomes.

7 World-class threat intelligence and incident response

Unit 42® threat intelligence enhances everything we do at Palo Alto Networks. Our Incident Response team is the preferred breach response company for more than 70 cyber insurance carriers.
