Specifications

	Balance 30 Pro
WANInterface	2x GE 1x Embedded LTE-A Modem 1x USB Interface
SpeedFusion Hot Failover	•
SpeedFusion WAN Smoothin	ng O ^
SpeedFusion Bandwidth Bon	iding O ^
LAN Interface	4x GE PoE#
Wi-Fi Interface	Dual-Band 802.11ac/a/b/g/n Access Point
Stateful Firewall Throughput	400Mbps
Recommended Users	1-60
LTE-A Modem	Downlink/Uplink Datarate: 300Mbps/50Mbps
IP Passthrough	•
Antenna Connectors	2x SMA Antenna Connectors 4x RP-SMA Wi-Fi Antenna Connectors
Power Input	DC Jack: 10V - 56V
Power Output	Up to Four 802.3af PoE Outputs#
Power Consumption	28W (max.)
Dimensions	1.6 x 10.2 x 5.6 inches 40 x 260 x 143 mm
Weight	2.2 pounds / 1 kg
Operating Temperature	-40° – 149°F / -40° – 65°C
Humidity	15% – 95% (non-condensing)
Certifications	FCC, CE, RoHS
Warranty	1-Year Limited Warranty
^ Available as a license add-on.	

Unbreakable Branch Connectivity

The Balance 30 Pro comes equipped with two Ethernet WAN and one cellular WAN for automatic failover, making it an ideal choice for branch offices that absolutely must stay connected.

SD-WAN With Dual Wired Ports and LTE

The Balance 30 Pro supports two wired connections and one LTE with SD-WAN capabilities for traffic steering, load sharing and failover, powering your critical business continuity.

Redundant SIM Slots for Multiple Carriers

Redundant SIM slots with automatic switching for reliable network. You can set the Balance 30 Pro to automatically switch SIM cards when you're in danger of data overage, or aggregate capacity of multiple SIM data plans.

* PoE Activation Kit is available separately, needs at least 48V of input for PoE output **Product Ordering Information**

SpeedFusion Hot Failover, Great for VoIP

Balance 30 Pro automatically re-establishes your SpeedFusion connection on lower priority link when your primary WAN fails. Your VPN stays up, and you stay seamlessly connected.

4-port PoE-Enabled GE LAN Switch

With the PoE activation kit, all LAN ports can support PoE output. That way, you can hook PoE powered devices such as IP Phones and additional Wi-Fi APs. Perfect for Branch Networking.

Traffic Control

peplink Balance 30 Pro

One-Device Retail Connectivity Solution

The Balance 30 Pro can handle all your networking needs. With the PoE activation kit, its four PoE LAN ports can connect and power your payment terminal, IP phones, Wi-Fi hotspots. The Balance 30 Pro has one cellular and two Ethernet connections, ensuring that your network and business will keep running no matter what.

With Peplink PrimeCare Advance, you can enjoy turn the Balance 30 Pro into a source of revenue and customer data. Use the Ad Delivery service to deliver advertisements and surverys to your

Access Point

Phones, PoS Terminals, and Access **Points (Requires PoE Activation Kit)**

InControl: Zero-Touch Provisioning

InControl makes your network scalable. From any web browser, you could remotely push a wide range of settings to multiple devices in your network.

QoS: Determine Traffic Priority

Application	Priority			?
	Manager	Staff	Guest	99999
SIP	↑ High ▼	↑ High ▼	↑ High ▼	×
Skype	↑ High ▼	↑ High ▼	↑ High ▼	×
нттр	– Normal 🔻	– Normal 🔻	– Normal 🔻	×
<u>WoW</u>	↓ Low ▼	↓ Low ▼	↓ Low ▼	×
	Ad	d	•	

QoS enables you to assign different priority levels to different types of traffic. Minimize latency by giving high priority to VoIP traffic. Control data costs by limiting the speed of bandwidth-intensive applications.

Use InControl to customize the captive portal and apply it to any SSID. With InControl's scalable architecture, you can apply the SSID to multiple devices in your network using device tags. Use the cloud-based Ad Delivery Service (ADS) to monetize your Hotspot.
