INDOOR ACCESS POINTS

Performance That Leads the Industry

Xirrus Access Point (AP) solutions deliver a superior Wi-Fi experience for today's connected world using a scalable, adaptive platform that protects your investment. Ideal for offices, classrooms, hotels, hospitals, and similar organizations, Xirrus APs provide the most flexible, cost-effective solution for small-to-large enterprise networks.

FAST AND FLEXIBLE

Xirrus APs deliver industry-leading Wi-Fi performance, providing 100% high-speed 11ac Wave 1/Wave 2 connections and 2x the bandwidth of competitive APs. Xirrus Wi-Fi solutions can instantly boost performance with the click of a mouse to adapt to changing client devices and optimize the user experience.

EASY TO DEPLOY

Xirrus APs simplify integration with existing network infrastructure using plug-and-play simplicity. Zero-touch provisioning and automatic RF configuration, enable secure and reliable Wi-Fi service in minutes with minimal IT effort.

AT A GLANCE

- 2x the 11ac Wi-Fi capacity of competitive APs
- Programmable radios for dual-11ac operation
- Seamless integration with existing networks
- No centralized controller eliminates single point of failure
- Flexible cloud or on-premise management options

INDOOR ACCESS POINTS

SIMPLE TO MANAGE

Xirrus APs include a comprehensive set of tools that allow user, device, application, and traffic management with complete visibility. The Xirrus Management System (XMS) operates from the cloud or on-premise from a single console.

PREDICTABLE PERFORMANCE

Performance is predictable with deep packet inspection (DPI) technology which provides complete application visibility within the AP at the network's edge. Over 1,400 applications or groups of applications can be prioritized, blocked or throttled. Policies can be scheduled by device type, user group, SSID, or across the entire network on specified times or days.

AUTOMATED NETWORK OPTIMIZATION

Xirrus optimizes network performance with automatic RF configuration. Xirrus APs automatically choose optimal channels, bands, and power levels without IT intervention. Xirrus APs also customize client connectivity through device-fingerprinting to maximize performance based on device capability.

SIMPLIFIED ACCESS MANAGEMENT

Xirrus EasyPass Access Services, a free service integrated within Xirrus Management System−Cloud (XMS-Cloud), provides a highly secure, single dashboard solution to to simplify the process of connecting users to the network, including self-provisioned access for guests and easy onboarding of BYOD devices for employees.

Product Series	Description
XD2-240	Dual Radio 802.11ac Wave 2 AP with 7Gbps total Wi-Fi bandwidth
XR-630	Dual radio 802.11ac AP with 2.6Gbps total Wi-Fi bandwidth
XR-620	Dual radio 802.11ac AP with 1.7Gbps total Wi-Fi bandwidth
X2-120	Dual radio 802.11ac AP with 1.1Gbps total Wi-Fi bandwidth
XR-520	Dual radio 802.11n AP with 600 Mbps total Wi-Fi bandwidth

WANT TO TRY EASYPASS FOR FREE?

Go to our Free Trial page or email our sales department and we'll answer your questions, deliver a free trial of a Xirrus Access Point and XMS-Cloud/EasyPass, or dedicate a Wi-Fi expert to your guest and BYOD planning needs.

Learn how Xirrus provides the "Best Wi-Fi on the Planet" and hear from other customers around the world who deliver the fastest most reliable Wi-Fi with Xirrus solutions. Visit our customer stories page.
