XIRRUS MANAGEMENT SYSTEM

SIMPLIFY IT OPERATIONS

Xirrus simplifies Wi-Fi management with a full suite of powerful, easy to use tools and services, all from a single platform. Xirrus offers the choice to manage the Wi-Fi with an on-premise or cloud based Xirrus Management System.

EASY TO MANAGE

Businesses can deploy Wi-Fi networks in minutes without extensive IT resources. An intuitive platform provides a complete set of functionality to design, deploy, monitor, troubleshoot and manage Wi-Fi networks.

INCREASE WI-FI AVAILABILITY

XMS delivers a rich set of proactive alerts, notifications and automated performance assurance capabilities to increase the Wi-Fi availability and uptime of the network.

AT A GLANCE

- Implement faster with zero touch deployment
- Complete application visibility and control
- Simplify operations with automation
- Integrated guest access management
- Flexible On-premise or Cloud management

XIRRUS MANAGEMENT SYSTEM

HIGHLIGHTS

CUSTOMIZABLE REPORTS

XMS provides both pre-defined and customizable reports on network health including client details, AP statistics, application details and traffic statistics for troubleshooting, trend analysis and capacity planning. The network statistics can be exported to spreadsheets or other tools through API for further analysis and reporting.

COMPREHENSIVE SOLUTIONS

Xirrus delivers comprehensive solutions to meet Wi-Fi needs through a suite of integrated services and industry leading technology partner solutions. XMS enables Apple services with Bonjour Director, secure guest access via self-provisioning or through a guest ambassador and mobile device management (MDM) with AirWatch.

UNIFIED MANAGEMENT

XMS-Enterprise provides a "single pane of glass" management view across the entire Xirrus Wi-Fi network. A high performance network including XT-5000 series Gigabit Ethernet switches and XR multi-radio access points can be managed from a single platform and simplifies IT operations.

CLOUD MANAGED

Manage the network from anywhere or from any device via your web browser with XMS-Cloud. This software-as-a-service platform, built on a true multi-tenant architecture, enables multi-site, multi-customer Wi-Fi management and simplifies operations for IT Organizations and Managed Service Providers alike.

Product Series	Description
XMS-9000-XX	Free Xirrus Management System-Enterprise software for VMware or Hyper-V; requires license to manage devices
XMS-9000-YYYYY	Xirrus Management System-Enterprise licenses based on number of radios
XMS-9500-CL-X	1-, 3-, 5-year Xirrus Management System-Cloud per radio license; includes guest access, premium hardware and software support for the access points
