

XIRRUS MANAGEMENT SYSTEM

The Xirus Management System (XMS) is a highly visual and intuitive wireless network management platform built ground up with one goal – to reduce the burden on IT by simplifying Wi-Fi operations. The XMS scales from managing small, single site networks to large networks with tens of thousands of devices across multiple locations. Xirus provides you with the flexibility to implement XMS in two ways:

- XMS-Enterprise, an on-premise solution operating on VMware or Hyper-V virtual environments
- XMS-Cloud, a software-as-a-service (SaaS) solution runs from the cloud

Configuration Specifications

Xirus Management System - Enterprise

Maximum Radios Managed	1,000	2,500	5,000
Max Stations (Clients) Managed	3,000	7,000	35,000
Minimum Recommended Processor	4 Cores	8 Cores	8 Cores
Minimum Recommended RAM	4GB	8GB	32GB
Minimum Recommended Storage	Raid 1 (200GB)	Raid 10 4 (Fast HDs - 300GB)	Raid 10 8 (Fast HDs - 500GB)
Run Disk De-Fragmentation Daily	Yes	Yes	Yes
Recommended Virtual OS	VMWare – ESXi or Vsphere 5.0+ Microsoft – Hyper-V Server 2012 R2 (Standalone) or Windows Server 2012 R2 with Hyper-V Role	VMWare – ESXi or Vsphere 5.0+ Microsoft – Hyper-V Server 2012 R2 (Standalone) or Windows Server 2012 R2 with Hyper-V Role	VMWare – ESXi or Vsphere 5.0+ Microsoft – Hyper-V Server 2012 R2 (Standalone) or Windows Server 2012 R2 with Hyper-V Role

Supported Browsers (XMS - Enterprise and XMS-Cloud)

Latest releases of Internet Explorer, Safari, Firefox and Chrome

XIRRUS MANAGEMENT SYSTEM

PART NUMBER	DESCRIPTION
XMS-CLOUD	
XMS-9500-CL-1	1-year Xirrus Management System-Cloud license for managing 1 radio; includes guest access, premium hardware and software support for the access points
XMS-9500-CL-3	3-year Xirrus Management System-Cloud license for managing 1 radio; includes guest access, premium hardware and software support for the access points
XMS-9500-CL-5	5-year Xirrus Management System-Cloud license for managing 1 radio; includes guest access, premium hardware and software support for the access points
XMS-Enterprise	
Base Platforms	
XMS-9000-VM	Xirrus Management System to operate on customer supplied VMware virtual machine. Requires license, order desired number based on radios.
XMS-9000-HV	Xirrus Management System to operate on customer supplied Hyper-V virtual machine. Requires license, order desired number based on radios.
XMS-Enterprise Radio Licenses, includes 90 day Software Warranty	
XMS-9000-50	Xirrus Management System license for up to 50 radios
XMS-9000-100	Xirrus Management System license for up to 100 radios
XMS-9000-200	Xirrus Management System license for up to 200 radios
XMS-9000-500	Xirrus Management System license for up to 500 radios
XMS-9000-1000	Xirrus Management System license for up to 1,000 radios
XMS-9000-2000	Xirrus Management System license for up to 2,000 radios
XMS-9000-5000	Xirrus Management System license for up to 5,000 radios
XMS-9000-10000	Xirrus Management System license for up to 10,000 radios
XMS-9000-PLUS	Xirrus Management System license for over 10,000 radios
XMS-Enterprise Guest Access	
XAS-9000-GUEST-1	Xirrus Access Services – Guest Access Portal – 1 year subscription for 1 user
XAS-9000-GUEST-3	Xirrus Access Services – Guest Access Portal – 3 year subscription for 1 user
XAS-9000-GUEST-5	Xirrus Access Services – Guest Access Portal – 5 year subscription for 1 user

About Xirrus

To organizations that depend on wireless access to transform their business, Xirrus is the wireless network solution provider that provides the world's most powerful, scalable, and trusted solutions. Through product invention and system design, commitment to customer success, and the industry's best price performance, Xirrus gives you confidence that your wireless network performs under even the most demanding circumstances. Headquartered in Thousand Oaks, CA, Xirrus is a privately held company and designs and manufactures its family of products.
