

Comprehensive protection and recovery options for your server workloads

Discover an all-in-one server backup and recovery solution for physical, virtual and legacy systems

Is your business data secure from common threats?

Downtime

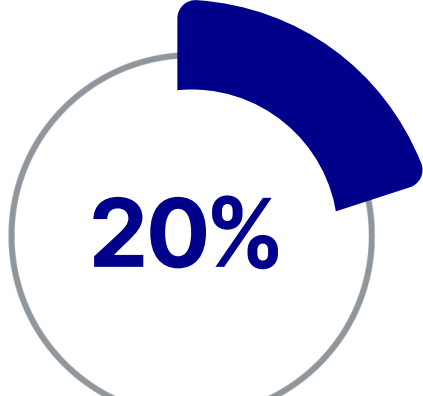

Natural disasters

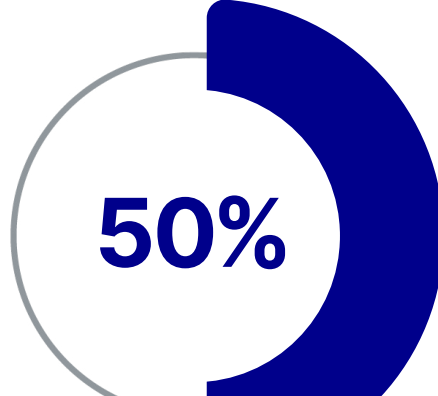

Accidental or intentional data loss

Server data backup and recovery

20% of data centers experienced server outages in the past 3 years

Over 50% of businesses pay ransoms worth 50K+

Common data recovery challenges businesses face

Lengthy recovery times

Performance and bandwidth issues

Disruptive downtime

Complexities when managing multiple backup systems

Exposure to cyber threats

Flexibility in data retention and recovery options

Ensure business continuity with a modern and flexible server backup solution

With OpenText™ Server Backup you can:

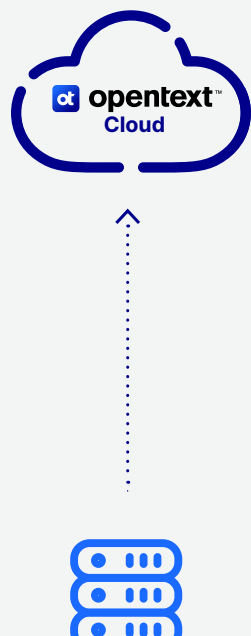

- **Avoid lengthy recovery times** and ease backup management complexities with our simple, all-in-one solution. Through granular recovery options, we provide secure, local and cloud backups for physical and virtual systems.
- **Relieve the strain** on bandwidth and increase performance with our flexible hourly backup options for on-site protection, integrated local hardware and cloud backup.
- **Reduce downtime** with rapid VM and Hyper-V recovery in minutes, regardless of VM size.
- **Prevent exposure** to cyber threats with immutable backups, which provide scanning, alerting and recovery remediation.

Take advantage of flexible deployment options and the ability to restore current or historical data from the cloud or a local appliance.

Direct to cloud

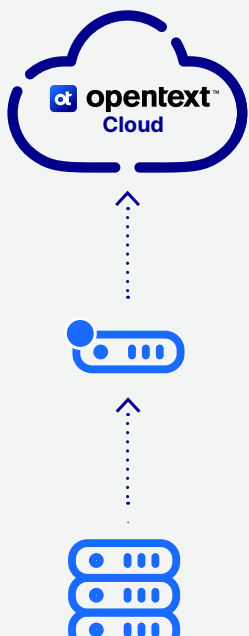

[MSP or OpenText™ Cloud]

Keep **two** copies of your data.

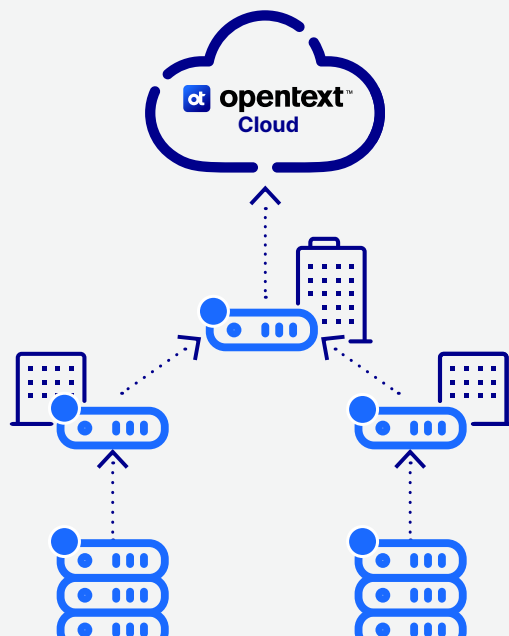

Hybrid backup

Keep **three** copies of your data.

ROBO

Keep **four** copies of your data.

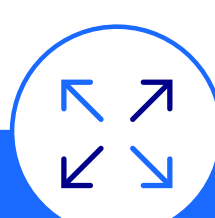

With OpenText™ Server Backup, data is backed up from physical and virtual servers to the backup server only once. After the full seed backup completes, only incremental backups are required thereafter. OpenText™ Server Backup replicates data to the cloud as soon as the backup job is complete.

OpenText™ Server Backup Enables

Peace of mind knowing your data is recoverable

Flexibility and choice to scale with your business needs

Simple all-in-one solution across cloud (SaaS), onsite or as a hybrid solution

“ Having the OpenText™ solution led to a huge savings, and we were so happy that we had such good backup. ”

Lisa Travis, Director of IT, Town of Colonie

Protecting your mission-critical business data is essential. Safeguard your business and ensure your data is where and when you need it most with OpenText™.
