Phenomenal Care support 24/7/365

How It Works

SimplyShare

Instantly share a dataset of any size with anyone without compromising security or relying on FedEx. Easily share externally with outsourced legal or auditors.

✓ Keep archived information secure

✓ Expedite audits and investigations

✓ Modern interface, requires no training

Worldwide data will grow to 175ZB by 2025 -IDC

Why now?

The need for compliance continues to grow and businesses are discovering even greater challenges around discovery, implementation, audits, surprise litigations, legal risks, and even personal liabilities for executives. While compliance can be challenging, our Information Archiving helps you to stay ahead of changing regulations while maintaining a high level of passive compliance, all with a simple and powerful interface that's easy to provision.

Why Information Archiving?

According to Gartner, 65% of the world's population in 2023 will have its personal information covered under privacy regulations, up from 10% today. Information Archiving lets your organization tackle compliance issues and leverage the opportunities that come with having a centralized system of record and the ability to store and sort communications quickly and efficiently. Plus, as an integral part of Secure Cloud, Information Archiving works seamlessly with Zix's other security, compliance, and productivity services in our Secure Suite. Together, they form a fully integrated platform that allows partners and customers to create a secure, modern workplace.
