What This Product Does

The Wi-Fi Booster enables you to replace and upgrade your existing wireless network, providing coverage to your entire home.

SmartBeam Antenna

The Wi-Fi Booster uses SmartBeam technology to provide your home with complete coverage. SmartBeam seeks out and beams wireless signal directly to your wireless devices. By doing so, you get a stronger signal with less interference and less dropped connections. SmartBeam works in real-time, so you can move around your home with your wireless devices

With patented SmartBeam® blade antenna design
