

E-MAIL AND SERVER SECURITY

Secure sharing and communication with powerful
first-line defense

E-mail and Server Security comes in two versions: Standard and Premium. Premium version supports SharePoint and EMC servers, and includes Software Updater, a turn-key solution that offers increased visibility to potential threats.

What's new:

1. Software Updater scans the computer for missing software updates and offers increased visibility to potential threats.
2. Premium version 11.00 includes protection for SharePoint
3. Premium version 11.00 includes protection for EMC servers

Key features:

- E-mail and Server Security is a packaged first line of defense against zero-day threats and known vulnerabilities
- In addition to Server Security functionality, it offers award-winning, real-time protection for operating system and email
- For Microsoft Exchange, Microsoft Sharepoint, EMC, Citrix and Windows servers
- Keeps operating system and 3rd party server software updated
- Spam control for email

Supported languages:

English, Français, Deutsch, Italiano, Polski, Español, Svenska, Korean (Republic of Korea), Japanese, Traditional Chinese (Hong Kong)

Compatibility:

- E-mail and Server Security 11.00 works only with Policy Manager 11.10 and above to be able to handle the virtualization security feature.
