riverbed®

eCDN Accelerator Analytics

Insights and Reporting

Riverbed® eCDN Accelerator™ empowers your hybrid workforce by delivering high-quality live and on-demand video to all employees, regardless of their location, device, or bandwidth capacity.

As hybrid work models become the new normal, keeping employees engaged is more important than ever. It's also critical that essential messaging is received by everyone across the organization. eCDN Accelerator analytics can help.

To maximize your content delivery investment, Riverbed eCDN Accelerator analytics produces live event insights and eCDN reporting metrics.

Key Features:

- Activity, Quick Stats and Producer dashboards
- Viewership and experience reports
- Network performance center
- Peering cluster graphs

Figure 1: Embedded Analytics – Reach, Dwell, QoE

Intelligent Performance

Monitor quality scores, event views, peering efficiency and bandwidth savings from a central activity dashboard.

Advanced Delivery & Consumption Views

Investigate geographic distributions and granular viewership tiles to push event performance to the next level.

Instant Activity and Event Management

Filter events by live now and recent activities and drill into viewer experience metrics.

Segment Viewing Needs

Tap into specialty dashboards for producers and quick stats with ultra-fast load times.

Network Efficiency Reporting

Explore interactive peering cluster graphs to deliver innovative savings and efficiency stats.

Figure 2: Peering Cluster — Innovative peering cluster graphs display QoE visuals with node, IP address, and byte details.

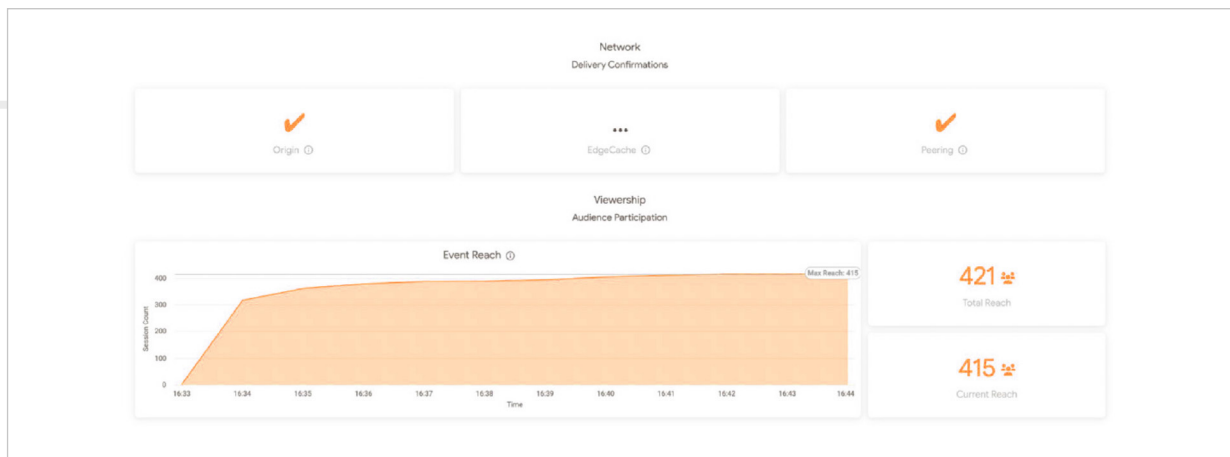

Figure 3: Producer Dashboard — Monitor key event metrics in a lightning-fast dashboard designed for real-time performance tracking.
